Building Energy Audit for Project Managers (CPD0914/2013) 7 and 14 September 2013 (Sat)

The objective of this course is to train engineers at executive level on the leadership for fulfilling the requirements of Building Energy Efficiency Ordinance Chapter 610 (BEEO). Specifically, the aims are to enable engineers to:

- understand the purposes of building energy efficiency and energy audit within the context of the BEEO;
- conduct building energy audit processes at executive level;
- develop energy management systems based on the energy audit process.

Content:

Part 1:

- Building Energy Efficiency Ordinance Chapter 610
- Objectives of BEEO from a historical perspective.
- Framework and structure of BEEO
- Milestones of BEEO
- Registration of Energy Performance
- Energy audit – time frame, what to do and what is not necessary
- Duties of an REA

Part 3:

- Leading Building Energy Audit (EA)
- Reading a building
- Defragmentation of a building
- The true sense of energy audit
- Building energy load – indoor environmental quality perspective
- Compliance with BEEO
