

# SUSTAINABILITY WORKSHOP

**Learn · Connect · Advance**

Facility managers are in unique position to improve the sustainability operational performance of facilities. It is not only showing our commitment to addressing global warming but also enhancing the corporate image and improving the working environments.

We have invited representative from Electrical and Mechanical Services Department to share with us on **Technical Guidelines on Retro Commissioning**, also hear the industrial leaders say on demand respond program and smart enterprise solution, smart lighting and IFMA's Sustainability Facility Professional®.

Space is limited. Book your seat online now to get in-
