

Organizer:

**Technical Webinar on Latest Trend of Occupational Health and Safety by
Introduction of ISO45001 System**

Jointly Organized by

**Building Services Operation and Maintenance Executives Society (BSOMES) &
The Chartered Institute of Plumbing and Heating Engineering – Hong Kong Branch (CIPHE-HKB)**

Date : 13 August 2020 (Thursday)

Venue : This event will be conducted in the form of webinar via Zoom.

Time : 18:30 – 20:00 hrs

Programme Highlights

ISO 45001 is an ISO standard for management systems of occupational health and safety (OH&S), published on 12 March 2018. It will replace the conventional OHSAS 18001 over a three-year migration period from 2018 to 2021. The goal of ISO 45001 is the reduction of occupational injuries and diseases, including promoting and protecting physical and mental health, by proactively improving OH&S performance. This seminar will introduce the key differences between ISO45001 and OHSAS18001, and the experience sharing on how to migrate to new ISO system as well as the benefits on the application of ISO systems.

Honourable Speaker

Dr. Aldous Au

Aldous develops his skills set from third party certification, occupational health & safety management and management consultancy for more than 7 countries, 20 industries, and over 300 companies in the past 20 years. He is lead auditor in eight ISO Management Systems, approved lead tutor and an internationally registered lead specialist in three ISO management systems. Aldous holds a PhD in Management, MSc in risk management, and MBA from University of UK.
