

Platinum and USGBC invite you to attend an historic LEED v4 in Asia Workshop and Reception in Hong Kong.

Save the date and [register now](#) – November 2nd

The workshop is open to anyone working on LEED projects in Asia Pacific LEED APs, Architects, Engineers, Project managers, Developers etc . Participants will discuss and develop technical solutions to specific green building challenges in the region. This is a unique and incredibly valuable chance to earn 6 CE hours towards your credential, get to know USGBC staff and fellow practitioners, and most importantly help us shape the implementation of LEED in your region.

- **Learn** about new & existing tools and resources for LEED professionals in Asia Pacific
- **Identify and develop** solutions to improve LEED for use in Asia Pacific
- **Collaborate** with industry leaders to identify how LEED v4 can bring value to Asia Pacific green building projects
- **Receive** up to 6 GBCI LEED-specific CE hours for participating in the workshop. 1 CE hour for those attending the evening reception only.

In addition to the workshop, we will hold a LEED in Asia Pacific Networking Reception in the evening, which will feature case studies of unique and best practice LEED Projects from SE Asia.

This reception is included in the workshop price or may be purchased separately for those wishing to join the evening session only.

When: 2 November 2015 9:30am – 5:30pm (workshop) and 6:30pm – 9:00pm (reception)

Where: The Hub, 1F, Fortune Building, 150-158 Lockhart Road, Wanchai, Hong Kong

Who: The daytime full day workshop is for people experienced in working on LEED projects in Asia Pacific LEED APs, Architects, Engineers Project managers, developers etc. The evening reception is open to anyone with broader interests

Registration Costs

Day 1 Workshop & Evening Reception	HKD
Standard Rate	\$400
Member Rate	\$200
Evening Reception only	HKD
Standard Rate	\$200
Member Rate	\$100

Membership is of Platinum

Several key members of USGBC's rating system staff will also be in attendance to hear your suggestions and provide inside perspective on LEED v4 and its adoption in Asia Pacific.

These include the following:

- **Corey Enck**, Vice President, LEED Technical Development
- **Deon Glaser**, Director, LEED International Technical Development
- **Sara Cederberg**, Technical Director, LEED – Responsible for materials and human health
- **Mika Kania**, Project Manager, LEED – Responsible for technical development and resources for East Asia

The agenda for the daytime technical meeting will be set through a pre-meeting preparatory call on October 19 at 8 PM Hong Kong time. The call will review the objectives of the event and position attendees to identify technical discussion points.

Those attending the full day workshop should sign up to this Oct 19th preparation call at <https://usgbc.webex.com/usgbc/onstage/g.php?MTID=e9937b99ff71ef40f97fb35263ecdb402%20>

Registration are open now
