

2015 BACnet Golden week——Opening door to Green buildings Forum Invitation

Dear friends:

Since the SSPC-135 Committee was set up by American Society of Heating Refrigerating and Air conditioning Engineers (ASHRAE) in 1987, BACnet technology has become the national standard of more than thirty countries, and has been adopted by many International Standardization Organizations, such as ANSI, ISO and CEN. As an open standard, BACnet technology standard is at end-users and manufacturers' disposal for free. BACnet standard doesn't depend on special hardware, and has gained a tremendous success worldwide——there have been more than 842 manufacturers using BACnet by 2015 July 19th and 29 of them are in China.

2015 marks the 20th anniversary of the introduction of BACnet technology to the world. In order to support Chinese companies to fully know BACnet technology inside out, from its protocol to its testing environment, BI - BACnet International, BIG-EU - BACnet Interest Group Europe and BACnet Interest Group China and Asia are organizing the first ever worldwide BACnet Golden Week event (forum, training and plugfest sessions) in Shenzhen, China:

- BACnet forum——Opening Door to Green Buildings, Day1**
- BACnet technology training, Day 2**
- BACnet Plug-Fest, Day3,4 & 5**

Time: 2015 November 16th to 20th

Place: Shenzhen China

Hosted by:

National TC 124 on Industry Process Measurement and Control of SAC (SAC/TC124)

National Technical Committee 426 on Digital Technique of Intelligent Building and Residence

Community of Standardization Administration of China(SAC/TC426)

Organized by

Instrumentation Technology and Economy Institute (ITEI)

Supported by

BIG-CA

BACnet International (BI)

BACnet Interest Group Europe (BIG-EU)

ASHRAE Hong Kong Chapter

Event highlights:

(1). The first time ever in the world this 3-in-1 event (BACnet Forum, Training & Plug-Fest) is hold. A number of international BACnet groups’ leaders and technical experts will present and share their experience. IT IS A GOLDEN OPPORTUNITY!

BACnet organization participants and speakers:

Mr. Andy McMillian, President of BACnet International

Mr. Bernhard Isler, Chairman ASHRAE SSPC 135

Mr. Raymond Rae, Chairman of BI Director

Mr. Duffy O’craven, BTL Manager

(2). The event will focus on the new development trends for green buildings through the lens of BACnet’s worldwide applications and the vision of BACnet global organization

(3). The training & the Plug-Fest will be instructed by Mr. ZHOU Hong, Senior Engineer, BACnet and BTL expert. There will be many industry-leading participants attend, including **Honeywell, Siemens, Delta, Schneider Electric, PCVue, Johnson Controls** and so on.

(4). With regards to the Chinese BACnet manufacturers, the experts will help you assess the risk and provide some guidance for developing your BACnet products, a true golden opportunity!

1. Event Information

The Golden week event includes the BACnet forum, BACnet technology training and BACnet Plug-Fest. You can choose which event to take part. Please read the following

information for more details.

- **BACnet forum—Opening Door to Green Buildings for free on Nov.16th**

Core topics will be connected intelligence, security in buildings, and the role of building management systems in new & existing green buildings. The forum will highlight the multi-vendor features of smart buildings.

The targeted audience is manufacturers, vendors of application, system integrators, Institutes and colleges, developers in the construction industry, real estate and building related companies. Anyone interested in BACnet can participate in this forum.

For more information, please click [the Forum Time, Location and Agenda](#):

- **BACnet technology training , Nov.17th. RMB 3,000.00/person)**

BACnet training is geared toward BACnet Institute, system integrators, device vendors, engineers and technicians, especially engineers who participate in the BACnet Plug-Fest. Mr. ZHOU Hong, China's Top BACnet expert is the instructor You can take advantage of this training to quickly grasp the knowledge on BACnet protocol and test specification. This one day training will prepare you well for a successful BACnet Plug-fest participation.

For more information, please click [instructor introduction, training time, location and Agenda.](#)

- **BACnet Plug-Fest, Nov. 18th to 20th. Training & Plug-Fest fee: RMB 8,000.00 per company (2 engineers max)**

Notice: There will be a Plug-Fest introduction at the BACnet technology training, so all the engineers are expected to attend.

The Plug-Fest provides an opportunity for all participants to improve the interoperability of their products with those from other attending companies. Manufacturers are also able to test functionality of their BACnet implementation within a large BACnet network. You are free to choose with which BACnet controllers you test your own devices, this includes Honeywell, Siemens、Delta, Schneider Electric, PcVue, Johnson Controls.

The test is geared toward BACnet manufacturers. This test is not a conformance test and may only be used to improve your BACnet implementation.

For more information, please click [the rule and regulations, time, location and Agenda](#).

In regards to the above information, BIG-CA has more information on its BIG-CA official website (www.big-ca.org) and BIG-CA Wechat (follow “big-ca”).

Seats are limited, please contact us ASAP!
